Job Description

 We are looking for a senior python lead developer colleague who would join our international development team. Our core business is in a bigger picture to navigate our customers into the container native world based both in on-premise and on hyper-scaler cloud solutions.
 Working on small and medium sized projects supporting our PaaS services:

- . Technical leadership of a 3 colleagues in python development
- . Bringing the team to a new development level
- . Code reviews
- . Improve code quality

 Examples what we develop in python:

- . Configurable scriplets for PaaS
- . Kubernetes based pay-as-you go consumption tracking
- . monitoring checks, custom Prometheus exporters
- . Backup building block, custom exporter to show the backup status
- . Sample applications for building blocks

Job requirements

 Relevant developer mindset and experience:

- . 7+ years work experience in software development
- . 4+ years python development experience
- . Familiarity with python ecosystem and libraries
- . Solid in automated tests
- . Strong in git strategies
- . Understanding clean code approach
- . Mocking expertise

 Leadership skills:

- . Softskills to listen and drive
- . Willingness to influence the way of our development
- . Mentoring junior and experienced developers
- . Good communication skills
- . Fluent English

 Nice to have:

- some Golang and Javascript experience
- Azure, AWS, Openstack IaaS know-how
- Work experience with Kubernetes, Openshift or any other containerization platform
- Grafana/Prometheus or equivalent monitoring experience

IT Services Hungary

 IT Services Hungary is the biggest ICT employer of Hungary, the subsidiary of T-Systems International. Our company uniquely offers the whole portfolio of ICT-services operating from our centres in Budapest, Debrecen, Pécs and Szeged. We satisfy the needs of clients on international scale in the fields of system integration and operation, while our services also include all the widely used software and hardware platforms of SAP systems services as well as distant and local server operation, network management and supervision. Our work has been acknowledged by awards "Investor of the Year" (2008 and 2015) and "Employer of the Year" (2014/2015, National Champion). Since 2014, our company has also won the Superbrands award multiple times, while most recently IT Business gave us the title "The Most Successful ICT enterprise" in 2017.
 We are looking for experienced professionals to become part of our continuously developing and growing company!
