## **T-Systems Slovakia**

technologies. <br> <br>T-Systems Slovakia was established in Slovakia in 2006 with the goal of providing information and communication (ICT) outsourcing solutions for the global corporate clientele of the Deutsche Telekom Aktiengesellschaft Group (DTAG). The company has been based in Košice since its establishment. It was established as a subsidiary of T-Systems International GmbH, which has its head office in Germany and is a part of the global Deutsche Telekom AG Group. <br>The Slovak company provides outsourcing services for corporate customers in Germany, the European Union and at a global level. The size and breadth of activities and quality of work delivered by T-Systems Slovakia is a major reason why the T-Systems brand is the market leader in Germany and one of the big four ICT service providers in Europe. <br>The company has used the last decade to grow from nothing to the second-largest IT company in Slovakia and the second-largest employer in the east of the country. T-Systems Slovakia had 3,850 employees in Košice at the end of 2016, which makes it the second-largest shared service center in Slovakia and one of the top fifteen largest employers in Slovakia. <br>Thanks to our highly qualified and motivated employees, our company has the fastest growing added value in the IT sector in Slovakia. <br>
